Previous Employments:

Rashtriya Chemicals & Fertilizers Limited(RCF)-Senior Manager (Projects) (2013-2023)

DENSO-Senior Engineer (Production) (2011-2013)

Profile Summary:

An experienced professional with more than 11 years of expertise in various sectors, including Operation & Maintenance (O&M), Contract & Procurement (C&P), and Greenfield Project Construction.

In July 2023, I transitioned to a full-time academic career due to my deep interest for learning and teaching. I am an instructor for core courses such as Operations Management I and Operations Management II, as well as elective courses such as Procurement (Sourcing) Management and Project Management, for PGP students. I am currently focused on researching and building analytical models that integrate Carbon Pricing into coordinated Supply Chain systems.
