IIM INDORE

Introduction

- Industry Outlook helps you anticipate trends in 207 industries. Expected creation of new capacities, projected financial performance, price movements of commodities, demand-supply balances or gaps in the future – these are some of the indicators that Industry Outlook provides information on.
- Industry Outlook is particularly useful in understanding the current and expected trends in the economic environment that your industry operates in. These are your suppliers' industries, your customers' industries or your competing industries.

Chintamani Athalye

The worst hit industries

Prospects of turnaround distant

The lockdown imposed by the government to contain the spread of Covid19 hits the transport sector by definition. As a result, all industries associated with transport are hit automatically. But, the impact across the transport eco-system is staggered and graded.

Excel Add-In

CMIE provides Excel add-in facility to download data from the CMIE website directly into your excel files.

To use this facility, you need to download an '.xlam' file and install it in MS Excel on your PC.

Please '[click here](#)' to download the '.xlam' file.

Please '[click here](#)' to understand how to install the file in your MS Excel.

Once you have downloaded and installed the add-in, you are ready to download CMIE data directly into your Excel spread sheets.

Please '[click here](#)' to understand how to download data in a cell using CMIE's 'ded()' function.

Please '[click here](#)' to understand how to download data into your Excel sheet using standard CMIE syntaxes.

Using the Add-in

There are two ways in which you can download CMIE data directly into your Excel sheet. One way is by using a function in a cell, just like the usual Excel functions of '=sum()' or '=average()'. The other way is by using fixed CMIE syntax in a few cells and using a hotkey.

For downloading data using the Excel Add-in, the numeric codes of indicators are used. English names of indicators cannot be used to download.

To obtain the codes of indicators, you need to go to the 'Indicators Search' tab on the menu bar and click on the "[Full list of indicators](#)" link. It will download a zip file. The zip file contains a .txt file which has the full list of indicators with their english names and their corresponding codes.

In case you are already viewing a tabulation of indicators, then on the left side of the page just below the menu bar you will see a link with the words 'Indicators in this report'. If you click on this link, it will show a list of the indicators in that tabulation with the indicator code in brackets just next to the indicator name. You can obtain the indicator code from this page too.

These indicator codes need to be used while using the Excel Add-in to download information.

Mail Alert

- Mail alerts are available to the registered users. The alert about specific industry and the specific information like insight, overview etc can be received.

Report Sets | Report Search | Indicator Sets | Indicator Search | Indicator Download | Excel Add-In | **Mail Alerts** | Subscription till: 06 Jan 2021

Search

Click on the check box to select the industries of your interest. You will receive an email alert whenever tiding/analytical report is released by CMIE on those industries.

Gauri Bhagwat

Users may seek clarifications on the content and operations of Industry Outlook, using this interface.

Select the most appropriate subject from the options below. CMIE will answer all specific questions. Open-ended ones may not be answered. To see the clarifications re-visit this section and click on Inbox. New responses if any, are indicated by the number in brackets.

Data availability in Industry Outlook

Use this option to enquire about the availability of any particular data in Industry Outlook. This is particularly used in seeking clarification regarding the availability of data for a particular report.

Clarification on data presented in Industry Outlook

Specify the Indicator(s) and the value(s) along with report name for which you need clarity and also specify what is the issue with the value(s) given in Industry Outlook.

Clarification on articles presented in Industry Outlook

Specify the Header along with link of the article for which you need clarity and also specify what is the issue with the article(s) given in Industry Outlook.

Clarification on operational issues

Here you can seek clarification on how the Industry Outlook website is operated. Specify the operation for which you seek clarification.

Other issues

If you have a question that cannot be classified in any of the above please use this option.

Thank You

Please write back at
library@iimidr.ac.in
for further help/clarification.
