## About IIM Indore

Established in 1996, Indian Institute of Management Indore (IIM Indore) has been a leader in the field of management education, interfacing with the industry, government and PSUs. It is an institute of national importance under the Indian Institutes of Management Act 2017.

Situated atop a scenic hillock, the 193-acre campus of IIM Indore provides an ideal backdrop for contemplative learning. IIM Indore has the latest in teaching aids, rich learning resources, a strong IT backbone, a state-of-the-art sports complex and hostels, and contemporary infrastructure.

As IIM Indore looks to the future, it remains committed to pushing the boundaries of management education, shaping ethical and visionary leaders, and making a lasting impact on the higher education landscape, both in India and globally.

### Accreditation and Rankings

The programme is accredited by the Association of MBAs (AMBA), London (UK), one of the world's most prestigious authorities for postgraduate management education. In addition, IIM Indore holds institutional accreditations from the EFMD Quality Improvement System (EQUIS) and the Association to Advance Collegiate Schools of Business (AACSB), USA, placing it among the highest-ranked management institutes globally. Together, these AMBA, EQUIS, and AACSB accreditations position IIM Indore

within the exclusive group of "Triple Crown" accredited business schools worldwide, a distinction achieved by only about 100 institutions globally.

The one-year full-time MBA at IIM Indore ranks 69 globally in the FT Global MBA Rankings 2025, reaffirming its status as a powerhouse in management education.

IIM Indore has been awarded the prestigious 5 Palmes of Excellence (highest category) during the 18th Eduniversal World Convention, hosted by IIM Indore. To be counted among just 100 top business schools globally is both an honour and a responsibility that encourages us to aim higher and serve better.

### Academic Programmes

1. Post Graduate Programme in Management (PGP)
2. Executive Post Graduate Programme in Management (EPGP)
3. Five Year Integrated Programme in Management (IPM)
4. Post Graduate Programme in Human Resource Management (PGP-HRM)
5. Post Graduate Programme in Management for Executives in Mumbai (PGP-MX)
6. Doctoral Programme in Management (DPM)
7. Executive Doctoral Programme in Management (EDPM)
8. Executive Doctoral Programme in Management and Governance (EDPMG)

## Director's Message

The Indian Institute of Management Indore, has built a strong reputation as a hub of academic excellence and leadership development in India. Guided by its vision to create socially conscious and globally relevant professionals, IIM Indore has consistently adapted to the evolving needs of businesses and society. The Executive Post Graduate Programme (EPGP) is a reflection of this philosophy. It is a rigorous, immersive, and strategically designed MBA programme for experienced professionals. The 17th EPGP cohort consists of a highly accomplished group of professionals who represent diverse sectors and bring in a wealth of experience, perspectives, and soaring ambitions to the learning environment.

At present, we are witnessing a dramatic transformation in the way organizations operate, with a shift from a VUCA (Volatile, Uncertain, Complex, Ambiguous) world to a BANI (Brittle, Anxious, Non-linear, and Incomprehensible) environment. This shift calls for professionals who combine technical competence with unwavering ethical principles. The programme is dedicated to shaping resilient leaders who navigate complexities with ease, lead with confidence, and foster sustainable growth in today's dynamic environment.

I take this opportunity to invite our esteemed recruiting partners to engage with this talented cohort for final placements. At IIM Indore, we are confident that these professionals will, like the previous cohorts of this programme, bring strategic insight, operational excellence, and leadership maturity to your organizations. We look forward to continuing our valued association with the industry to foster meaningful collaboration.

**Prof. Himanshu Rai**  
Director

# About The Programme (EPGP)

This MBA programme at IIM Indore is designed for experienced professionals seeking to accelerate their transition into senior leadership and strategic roles. Launched in 2009, the programme is guided by the mission *"to produce contextually relevant middle- and senior-level managers and leaders with exposure to world-class management education."*

This programme at IIM Indore is well recognised nationally and internationally. In the Financial Times Global MBA Rankings 2025, the programme is ranked 69th globally, and stands 4th among all IIMs featured, reaffirming IIM Indore's academic rigor and global standing. Additionally, the programme is ranked 4th Best Full-Time MBA in India by QS World University Rankings, 23rd in Asia, and 8th in the NIRF Rankings, reinforcing its consistent excellence across global and domestic evaluation frameworks. The institute is also a recipient of the prestigious 5 Palms Excellence Award, underscoring its global standing for academic rigor, employability, and institutional quality.

Structured across five intensive academic terms, the programme includes a mandatory International Immersion Module at SDA Bocconi School of Management, Milan,

offering participants firsthand exposure to global markets, cross-cultural leadership, and international management practices. This global immersion equips participants to operate effectively in increasingly interconnected and multicultural business environments.

The MBA curriculum combines a strong core foundation in management with a wide range of industry- and function-focused electives spanning strategy, consulting, analytics, information technology, and banking, financial services, and insurance (BFSI). The programme's pedagogy blends classroom instruction, case-based learning, live industry consulting projects, and international exposure, ensuring a strong balance between conceptual depth and real-world application.

Participants bring rich and diverse professional experience from sectors such as IT/ITES, energy, consulting, BFSI, manufacturing, automobiles, retail, and consumer packaged goods (CPG). This diversity creates a high-impact peer-learning environment, fostering insightful classroom discussions, cross-sectoral learning, and leadership development across functional and industry dimensions.

## Message from the Chair - EPGP

It is with immense pride that I invite recruiters to engage with the exceptional participants of the batch 2025-26 of the MBA Programme (EPGP) at IIM Indore for final placements. EPGP is a one-year, full-time MBA programme designed for experienced professionals, with a strong focus on leadership, strategic thinking, and business transformation.

The EPGP curriculum is dynamic, rigorous, and closely aligned with industry needs. It combines foundational management principles with emerging trends, ensuring participants are equipped for today's evolving business landscape. A cornerstone of the programme is the Global Immersion Module at SDA Bocconi, which provides valuable international exposure and insights into global business environments and cross-cultural management practices.

Our participant-centric pedagogy emphasizes learning through case studies, simulations, capstone projects, and direct industry engagement. Faculty members bring a rich blend of academic excellence and practical business acumen, preparing participants to tackle complex challenges with confidence. The EPGP 2025-26 cohort comprises accomplished professionals from diverse sectors, including IT, BFSI, consulting, energy & natural resources, and manufacturing. Each participant brings a minimum of five years of work experience, with many having held leadership roles prior to joining the programme. Their diverse perspectives and active classroom engagement have greatly enriched the learning experience.

Our EPGP alumni have gone on to thrive in leading Indian and global organizations, taking up key roles in consulting, strategy, operations, and product leadership. Their continued success reflects the strength of the programme and its ability to develop leaders who drive meaningful impact. The current cohort is well-positioned to build on this legacy. They are ready to take on strategic roles and deliver results from day one, with the same professionalism, commitment, and capability that have long defined EPGP graduates.

We invite you to discover how the EPGP 2025-26 cohort can add significant value to your organization, and we look forward to facilitating a mutually rewarding engagement.

**Prof. Jatin Pandey**  
Chair - EPGP

## Message from the Chair - Career Services

It is my pleasure to invite you to the Placement Process at IIM Indore. We are proud to present a cohort of accomplished professionals who are industry-ready and equipped with strategic, analytical, and leadership capabilities to make an immediate impact.

At the Career Services Office, our mission is to ensure that every EPGP participant is fully prepared to transition into new industries or functional roles. Through a structured teaching pedagogy, we enable our participants to confidently navigate to their next leadership assignment.

We also actively facilitate peer-to-peer engagement with successful EPGP alumni, allowing participants to gain more profound insight into evolving industry demands, real-world applications, and functional best practices. This connection with alumni has proven to be instrumental in helping them understand and adapt to current and emerging business contexts. As you engage with this diverse and capable group of professionals, we are confident that you will find individuals who align with your organizational goals and culture. We look forward to building a lasting and mutually beneficial partnership with your organization.

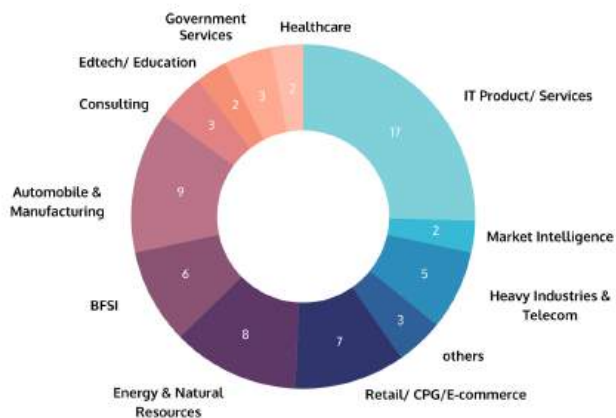

Prof. Abhishek Mishra  
Chair - Career Services

# Messages from Faculty Members

**Prof. Bipul Kumar**

The EPGP 2025-26 batch is an enthusiastic group of participants with unique charm and rich and varied perspectives. I thoroughly enjoyed teaching and interacting with them. I found them using their industry experience and business expertise to relate and discuss various concepts. Their inputs added a lot of value to the discussion, aiding the overall learning. I am sure that the participants of the EPGP 2025-26 batch will keep up this enthusiasm and achieve greater heights in life. I wish them all the best for their future.

**Prof. Keyur Thaker**

The class of EPGP 2025-26 brings 67 leaders, averaging eight years of experience across banking, IT, consulting, manufacturing, energy, and academia. They've excelled in roles from product management and supply chain optimization to financial consulting and digital strategy. Through lively case discussions, they've translated frameworks into concrete plans—whether designing clean-tech market entries or streamlining ERP systems. Balancing analytical rigor with people-centered leadership, they've tackled everything from publishing analytics to renewable-energy initiatives. I'm proud of how quickly they apply learning to challenges. This cohort is ready to leave a lasting mark in industries such as consulting, IT, and energy. I wish them success in their future endeavours.

**Prof. Bhavin Shah**

Our EPGP 2025–26 batch comprises professionals from diverse industries and functional backgrounds, ranging from oil and gas to IT/ITES and from consulting to entrepreneurship.

This cohort is a dynamic group of driven individuals who demonstrate strong enthusiasm and a keen willingness to learn. I have observed that they possess sharp business acumen and are quick to grasp new concepts, which equips them well to identify and address complex challenges in the business environment.

I am confident that the batch are well-prepared to make meaningful contributions to their future organizations and will continue to achieve outstanding success in their professional journeys. I extend my best wishes to them for a rewarding and impactful career ahead.

# Alumni Testimonials

## Vikash Khatri (EPGP 2007-09)

Founder, Aviral Consulting

When I joined IIM Indore in 2007, I wasn't just seeking a degree—I wanted to fundamentally reshape my career. Before IIM I, my expertise was deep but narrow, largely limited to sales and marketing. The programme transformed my professional DNA by teaching me to view a business not as isolated departments, but as a unified, interconnected value chain. The case method pushed us to connect decisions across functions—from factory operations to brand equity and beyond. That shift became the foundation of true career agility. I realized my industry experience was only context; the real asset was the ability to apply principles of value creation to any business. The language of business, I learned, is universal.

## Randhir Narayan (EPGP 2009-10)

Senior Director, Virtusa

During my consulting career with IBM and Oracle, I became increasingly curious about the business rationales behind large strategic decisions. Realizing that such roles required strong business acumen, I returned from the USA to pursue the EPGP at IIM Indore and was fortunate to be part of its inaugural batch in 2009-10. The programme

offered real-time exposure to all dimensions of business through world-class faculty, facilities, and highly experienced peers. The 200-acre hilltop campus made the year both enriching and memorable. Post-EPGP, I transitioned into large-scale business decision-making roles and now lead multi-million-dollar, complex deals across consulting, technology, and operations. The program strengthened my professional confidence and enhanced my personal decision-making skills. To current and aspiring EPGP students—congratulations on choosing a transformative path; a bright future awaits you.

## Manish Dikshit (EPGP 2010-11)

SVP & Country Head, HSBC Global Banking & Markets

For me, the EPGP at IIM Indore was a reboot that transformed both my career and personal development. The one-year full-time programme blends rigorous academics with practical insights, where professors and classmates contribute equally to learning. The international immersion adds a valuable global perspective to business and leadership. The programme enables deep learning, lifelong networks, and even career pivots for those seeking change. Some of my closest friendships—and even business partnerships—originated here. The IIM I alumni network continues to offer strong support and opportunities; learn, connect, win.

# Prabodhan : The Annual Leadership Conclave

Professor Himanshu Rai, Director, IIM Indore, inaugurates the event, highlighting the systemic fragility shaping today's global disruptions.

## Prabodhan 2025 – AI-Augmented Leadership Takes Center Stage at IIM Indore

IIM Indore successfully hosted Prabodhan 2025, the annual leadership and HR conclave of the Executive Post Graduate Programme in Management (EPGP), on September 20, 2025. The theme for this year's conclave was "AI-Augmented Leadership: Redefining Decision-Making, Workforce and Value Creation in the Age of Intelligence."

The event brought together industry leaders, distinguished faculty, and students to deliberate on the transformative role of Artificial Intelligence in shaping leadership, workforce dynamics, and sustainable value creation.

### Keynote Address

Drawing on the concept of the BANII world — Brittle, Anxious, Nonlinear, and Incomprehensible — Professor Himanshu Rai, Director, IIM Indore, emphasized how today's disruptions, from pandemics to geopolitics, reflect

systemic fragility. He highlighted that AI mirrors these traits: it creates brittle dependencies, fuels anxieties about jobs, introduces nonlinear effects such as deepfakes, and remains incomprehensible in its long-term impact.

Using a metaphor from the Bhagavad Gita, he urged leaders to let "carbon guide silicon" — meaning that while AI (silicon/Arjun) has immense execution power, it requires human wisdom (carbon/Krishna) to deliver meaningful outcomes. He concluded by calling on leaders to cultivate humility, curiosity, and a personal vision to responsibly navigate the AI-driven future.

### Panel Discussion I: Strategic Leverage of AI – Navigating Growth, Risk, and Innovation in a Data-Driven Economy

The first panel featured Mr. Anand Garg (Cluster Head, Dr. Reddy's Laboratory), Mr. Deb Gooha (CGO, MPAY), Mr. Manav Mathur (CTO, Everrenew), and Mr. Sameer Amte (MD, Alvarez & Marsal).

Panel 1. Left to Right - Prof Saumya Ranjan Dash, Anand Gard- cluster Head Dr. Reddy's Laboratories, Deb Gooha -CGO-MPAY, Manav Mathur-CTO- Everrenew , Sameer Amte- MD Alvarez and Marsal

The panel explored how AI has evolved beyond being a tool to becoming a strategic partner in business. Panelists stressed that AI accelerates decision-making, drives innovation, and reduces time-to-market. However, they emphasized that its real impact emerges only when business objectives, processes, and data are clearly aligned to generate actionable insights.

The discussion expanded the notion of ROI to include not just efficiency and cost, but also employee well-being, customer loyalty, and risk mitigation. The speakers agreed that successful adoption depends on robust strategy, functional ownership, scalable proof-of-concepts, and strong change management. Without these, AI risks remaining a mere experiment rather than a growth driver.

## Panel Discussion II: Human + AI – Reimagining Workforce Strategy, Talent, and Culture in the Intelligent Enterprise

The second panel featured Mr. Manoj Kumar Chaudhary (CHRO, Edelweiss Asset Management Ltd.), Mr. Sandeep Gautam (Group Head – Corporate HR, CK Birla), and Ms. Shefali Rai (CHRO, InMobi).

The discussion examined how AI is reshaping workforce strategies and HR practices. The panelists noted that AI enhances HR decision-making by improving probability estimates, surfacing outcomes, and minimizing bias, while also automating routine tasks. This shift allows HR leaders to focus more on human-centric responsibilities such as empathy, culture building, and leadership development.

However, the speakers cautioned that organizations must consciously decide what should remain machine-driven versus human-judgment-led. They called for greater investment in digital literacy, learning agility, and leadership traits such as humility, listening, and empathy. The overarching message was clear: in the intelligent enterprise, humans must remain the captains, with AI as the copilots.

## Closing Note

Prabodhan 2025 served as a timely reminder that the future of leadership lies not in choosing between humans and AI, but in building synergistic partnerships between the two. With its theme of AI-Augmented Leadership, the conclave successfully spotlighted the opportunities, risks, and responsibilities that leaders must embrace to create sustainable value in the age of intelligence.

Panel 2. Left to Right - Shefali Rai CHRO InMobi, Manoj Kumar Chaudhary CHRO -Edelweiss Asset Management Ltd., Sandeep Gautam- Group Head- CKA Birla.

# International Immersion

Global Exposure, Local Impact: IIM Indore EPGP Students Complete International Immersion at SDA Bocconi, Milan

Co '26 at SDA Bocconi

The International Immersion Module of the EPGP is a dedicated executive learning initiative designed and delivered in collaboration with one of Europe's most prestigious management institutes — the SDA Bocconi School of Management, Milan. This two-week *Advanced Leadership Programme* offers participants an opportunity to gain a global perspective on management, leadership, and innovation while experiencing the rich academic and cultural environment of Italy.

The immersion module is structured to help participants understand and adapt to the demands of an increasingly globalized business landscape. It equips them with the tools to evaluate, compare, and analyze business practices across developed and emerging economies. Designed under the guidance of eminent international faculty, the programme aims to enhance participants' strategic acumen and leadership effectiveness through classroom learning, experiential case studies, and interactions with industry experts.

The academic sessions at SDA Bocconi covered contemporary themes including global macroeconomics, ESG and sustainability integration, digital transformation, sustainable operations, luxury brand management, sports business, and emerging technologies. These sessions helped participants explore how businesses are embedding sustainability and innovation into their core strategy, and how digitalization is reshaping leadership and decision-making.

A major highlight of the programme was the visit to the Dallara Academy, where students witnessed firsthand how precision engineering, design excellence, and cutting-edge technology converge to create high-performance supercars. This industry exposure provided valuable lessons in innovation, teamwork, and operational excellence — hallmarks of the Italian business ethos.

The immersion also underscored the similarities between Indian and Italian excellence — both built on a foundation of craftsmanship, creativity, and resilience. By engaging with world-class faculty and peers from diverse backgrounds, participants gained fresh perspectives on leadership, sustainability, and competitiveness in the global arena.

The experience at SDA Bocconi thus served as a transformative learning journey — reinforcing IIM Indore's commitment to developing globally aware, socially responsible, and innovation-driven business leaders.

## Key Learning Areas

### Business Trends: Sustainability and Digital

- Sustainable business models and ESG integration
- Digital transformation and AI-driven innovation
- Sustainable supply chains and circular design
- Embedding sustainability in corporate strategy

### Deep Dive into European Business

- Eurozone economy and global trade
- Sports and entertainment business strategy
- Competing in luxury and design-driven industries
- Industry visits (Dallara Academy)

# Zenith Talks: The Industry Connect

## Zenith Talk: Connecting Classrooms with Industry Leadership

### What is Zenith Talk?

The Zenith Talk series represents a unique and transformative initiative within the Executive Post Graduate programme (EPGP) in Management at IIM Indore. It is a platform designed to bridge the gap between academic learning and real-world industry expertise by bringing accomplished business leaders directly into dialogue with students. Through these sessions, senior professionals from leading organizations share their knowledge, experiences, and strategic perspectives, offering students a window into the practical dimensions of business leadership and career development.

### The Purpose and Impact

Zenith Talks serve as a catalyst for enriching the educational experience at IIM Indore. Rather than limiting learning to classroom discussions and case studies, this initiative recognizes that students benefit immensely from direct engagement with industry practitioners. These sessions expose students to diverse career pathways, contemporary business challenges, and innovative organizational practices that shape the modern corporate landscape.

By hosting industry leaders, Zenith Talks fulfil multiple educational objectives: they provide students with current, real-world insights; they inspire participants to think beyond textbook frameworks; and they foster meaningful professional connections that extend beyond the duration of the programme. For many students, these

interactions prove instrumental in shaping their career aspirations and professional identity.

### How Zenith Talks Are Structured

Each Zenith Talk is carefully curated to ensure maximum learning and engagement. Sessions typically feature a senior leader who delivers insights on a specific theme relevant to contemporary business challenges and career development. What distinguishes Zenith Talks from traditional corporate presentations is their interactive nature—these are not passive lectures but dynamic discussions where students actively participate, ask questions, and share their own perspectives.

The sessions are thoughtfully facilitated, often with faculty involvement, ensuring that academic rigor complements industry insights. This collaborative approach creates an environment where theoretical understanding and practical wisdom converge, enriching the learning experience for all participants.

### Breadth of Topics Covered

The variety of themes explored through Zenith Talks reflects the multifaceted nature of modern business leadership. Topics span across industry domains and functional areas, including:

**Career Development and Professional Growth** — Sessions that explore career trajectories, the challenges of climbing organizational hierarchies, and strategies for building resilient, adaptive careers in dynamic industries.

**Emerging Technologies and Innovation** — Discussions on

Ashish Bajaj (seated) - Group- CMO- Narayana Health

how organizations navigate technological transformation, digital disruption, and the imperative for continuous upskilling in technology-driven sectors.

**Organizational Strategy and Culture** — Insights into how companies build cohesive cultures, implement strategic initiatives, and align people strategies with business objectives.

**Leadership and Resilience** — Conversations on what it takes to lead effectively in times of change, how to build resilience as a professional, and the importance of adaptability in evolving industries.

**Holistic Business Thinking** — Perspectives on how effective leaders integrate multiple dimensions of organizational success, from technology and talent to wellness and sustainable growth.

The breadth of topics ensures that students gain exposure to diverse facets of business leadership, preparing them to think comprehensively about organizational challenges and opportunities.

### The Value of Zenith Talks for EPGP Students

For students in a one-year, full-time MBA programme, time is a precious resource. Zenith Talks maximize the value of this limited timeframe by providing concentrated doses of industry wisdom that would typically take years to accumulate through work experience alone.

These sessions offer several distinct advantages: they expose students to multiple industries and leadership philosophies; they provide mentorship and guidance from accomplished professionals; they clarify career options and pathways; and they build a network of industry contacts that extends students' professional reach beyond graduation.

Moreover, Zenith Talks contribute to the overall educational ecosystem at IIM Indore by fostering a culture of continuous learning and external engagement. They signal to students that business education is not confined to campus but is deeply connected to the living, breathing world of industry practice.

### A Cornerstone of the EPGP Experience

The Zenith Talk series has established itself as a cornerstone of the EPGP programme at IIM Indore. By consistently bringing industry leaders into conversation with students, the initiative ensures that classroom learning is continuously informed by real-world developments and practitioner insights. For students, faculty, and the institution itself, Zenith Talks represent a commitment to education that is rigorous, relevant, and deeply engaged with the business world.

As the programme evolves and the business landscape continues to shift, Zenith Talks will remain a vital channel through which IIM Indore students connect with industry leaders, gain actionable insights, and prepare themselves for meaningful careers in an increasingly complex and dynamic business environment.

# Odyssey Talks: The Alumni Connect

Left to Right- Prof: Jatin Pandey- Programme Chair- EPGP, Seshadri Bashyam - Director Software Development at IQVIA, Manish Dikshit - HSBC Global Banking & Markets SVP & Country Head, Randhir Narayan - Virtusa - Senior Director, Dr Vikash Khatri - Aviral Consulting - Founder, Deepak Chauhan - Ezzysip - SVP

## Odyssey Talk: Bridging Legacy with Future Aspirations

### What is Odyssey?

The Odyssey Talk series represents a deeply connected and transformative initiative within the Executive Post Graduate Programme (EPGP) in Management at IIM Indore. It is a platform designed to bridge the gap between current cohorts and the institution's distinguished alumni network. Organized by the EPGP Alumni Committee, this series brings seasoned graduates back to campus to engage in meaningful dialogue with current students. Through these sessions, alumni from diverse industries and global organizations share their unique career journeys, challenges, and successes, offering students a window into the professional trajectories that await them post-graduation.

### The Purpose and Impact

Odyssey Talks serve as a catalyst for community building and professional mentorship at IIM Indore. Rather than viewing the alumni network as distant entities, this initiative recognizes that students benefit immensely from the relatability and shared heritage of those who have previously walked the same path. These sessions foster a sense of pride and belonging, strengthening the bond between the alma mater and its graduates.

By hosting alumni leaders, Odyssey fulfills multiple educational objectives: they provide students with honest career insights and guidance; they offer practical advice on navigating organizational hierarchies; and they facilitate networking opportunities. For many students, these interactions are instrumental in refining their career goals and understanding the nuances of different industry sectors.

### How Odyssey Talks Are Structured

Each Odyssey session is carefully curated to ensure maximum relevance and engagement. Sessions range from individual keynote addresses to dynamic panel discussions featuring multiple alumni. What distinguishes Odyssey from standard guest lectures is the element of shared experience; these are candid conversations where alumni discuss the "Manasthithi" (Mindset) and "Paristhithi" (Situation) required to adapt to a changing "Prakriti" (Reality).

The sessions are often facilitated with faculty involvement, ensuring that management frameworks taught in the classroom are contextualized through the alumni lived experiences. This collaborative approach creates an environment where academic theory meets the practical wisdom of those who have successfully applied it in the real world.

## Breadth of Topics Covered

The variety of themes explored through Odyssey reflects the diverse paths IIM Indore graduates take. Topics span across industry domains, functional areas, and personal growth, including:

**Cross-Industry Leadership and Agility** — Insights on applying management principles across diverse sectors, navigating complex regulated environments, and the importance of principled decision-making in shifting business landscapes.

**Emerging Technologies and Digital Transformation** — Discussions on how technologies such as AI and 5G are reshaping industries, with a focus on the human element of transformation—emphasizing that real change is about people, culture, and long-term value creation.

**Career Strategy and Resilience** — Conversations on the realities of climbing the corporate ladder, the importance of Emotional Intelligence (EQ), and strategies for building resilient careers in an era of disruption.

## The Student Advantage

For students in a one-year, full-time MBA programme, the ability to foresee potential career hurdles is invaluable.

Odyssey Talks maximize the student experience by providing "foresight through hindsight", allowing current students to learn from the mistakes and triumphs of their predecessors.

These sessions offer several distinct advantages: they expose students to the practical application of their degree; they clarify the evolving demands of the job market; and they build a network of industry contacts that are predisposed to support IIM Indore graduates. Moreover, Odyssey fosters a culture of continuity, signalling that the relationship with the institute extends far beyond the duration of the programme.

## An Enduring Legacy

The Odyssey Talk series has established itself as a pivotal part of the EPGP heritage at IIM Indore. By consistently bringing alumni back into the fold, the initiative ensures that the classroom learning environment remains vibrant, relevant, and connected to the broader business ecosystem. By linking the aspirations of current students with the achievements of alumni, Odyssey ensures that the IIM Indore legacy is not just preserved but actively evolved. It represents the cycle of learning, succeeding, and giving back that defines the ethos of the institute.

# Industry Consulting Module (ICM)

IIM Indore EPGP participants during an on-site discussion as part of the Industry Consulting Module (ICM), engaging with real-world business challenges.

## Objective

The Industry Consulting Module (ICM) provides participants with immersive, hands-on consulting exposure that blends strategic thinking, analytical depth, and real-world application. It enables participants to apply management frameworks and digital insights to address live business challenges while working closely with leading organizations. The module aims to strengthen consulting skills, strategic clarity, and data-driven decision-making through experiential learning.

## Approach

Participants collaborate with companies across industries to work on consulting projects in technology consulting, domain consulting, and business transformation. Each engagement involves a holistic study of the organization's value chain, spanning supply chain, technology, finance, human resources, marketing, and operations.

The process begins with a detailed diagnostic assessment of the client organization's context, followed by stakeholder interviews, lean business modeling, and problem definition. Participants then design actionable solutions that enhance efficiency, innovation, and profitability. The journey is guided by faculty mentors and industry experts, ensuring a balance of academic insight and professional rigor.

## Key Learning Themes

- Strategic problem framing and hypothesis-based consulting
- Application of data analytics and AI-enabled insights in

decision-making

- Process excellence and organizational redesign
- Cross-functional collaboration across business verticals
- Development of lean, scalable business models
- Financial analysis, revenue optimization, and operational improvement

## Industry Relevance

The module mirrors the real-world consulting environment where participants engage directly with client teams to deliver impactful recommendations. By understanding the interplay of business processes, digital transformation, and organizational behavior, participants acquire the capability to bridge strategy with execution.

The consulting assignments encourage innovative thinking and equip participants to lead initiatives in automation, process re-engineering, and strategic growth planning. Every project culminates in a professional presentation before a panel of faculty mentors and industry leaders, simulating the expectations of global consulting engagements.

## Outcomes

The Industry Consulting Module transforms participants into future-ready professionals who can design and implement change across industries. It cultivates the ability to analyze complex problems, synthesize insights, and drive business transformation. Participants emerge with a deep understanding of how strategy, technology, and people align to create sustainable growth, operational excellence, and measurable impact.

Branding Committee

Corporate Interaction Committee

Infrastructure Committee

# Student Clubs

## ICONS – IIM Indore Consulting & Strategy Club

ICONS is the Consulting & Strategy Club of IIM Indore, focused on preparing students for consulting, strategy, and problem-solving roles across industries. The club builds strong fundamentals in structured thinking, hypothesis-driven analysis, data-backed decision-making, and executive communication. Through case interviews practice, live industry cases, consulting simulations, strategy workshops, and national-level case competitions, ICONS enables students to apply classroom concepts to real business challenges. ICONS members work closely with peers, and industry professionals to develop consulting-ready skills valued by top firms and leadership roles.

## Finance Club – IIM Indore (EPGP)

The Finance Club at IIM Indore is a hands-on platform designed to help EPGP participants sharpen practical finance and investment skills. The club bridges theory and real-world application through industry-led guest sessions, market and portfolio case studies, stock pitch competitions, and AI-driven investment simulations. By combining experiential learning with peer collaboration and informal networking, the Finance Club prepares participants for roles in corporate finance, investment management, banking, and financial strategy—equipping them with market intuition, analytical rigor, and decision-making skills valued by employers.

## TCC- The Communication Club

The Comm Club (TCC) is EPGP's communication and leadership club, dedicated to helping participants build the confidence and clarity required to lead, influence, and collaborate effectively. The club's mission is to foster a culture of thoughtful expression, constructive dialogue, and respectful debate on campus—skills that are essential both within the classroom and beyond.

Over the course of the year, TCC facilitated a wide range of engaging activities including quizzes, skits, group discussions, extempore sessions, public speaking forums, and communication workshops.

## Information & Induction Club

The Information & Induction Club is the friendly face of the EPGP journey—turning curiosity into clarity. From admissions buzz to onboarding ease, we connect aspirants with the right info through engaging webinars, smart outreach, and collaborative storytelling, making the leap into IIM Indore exciting, informed, and seamless.

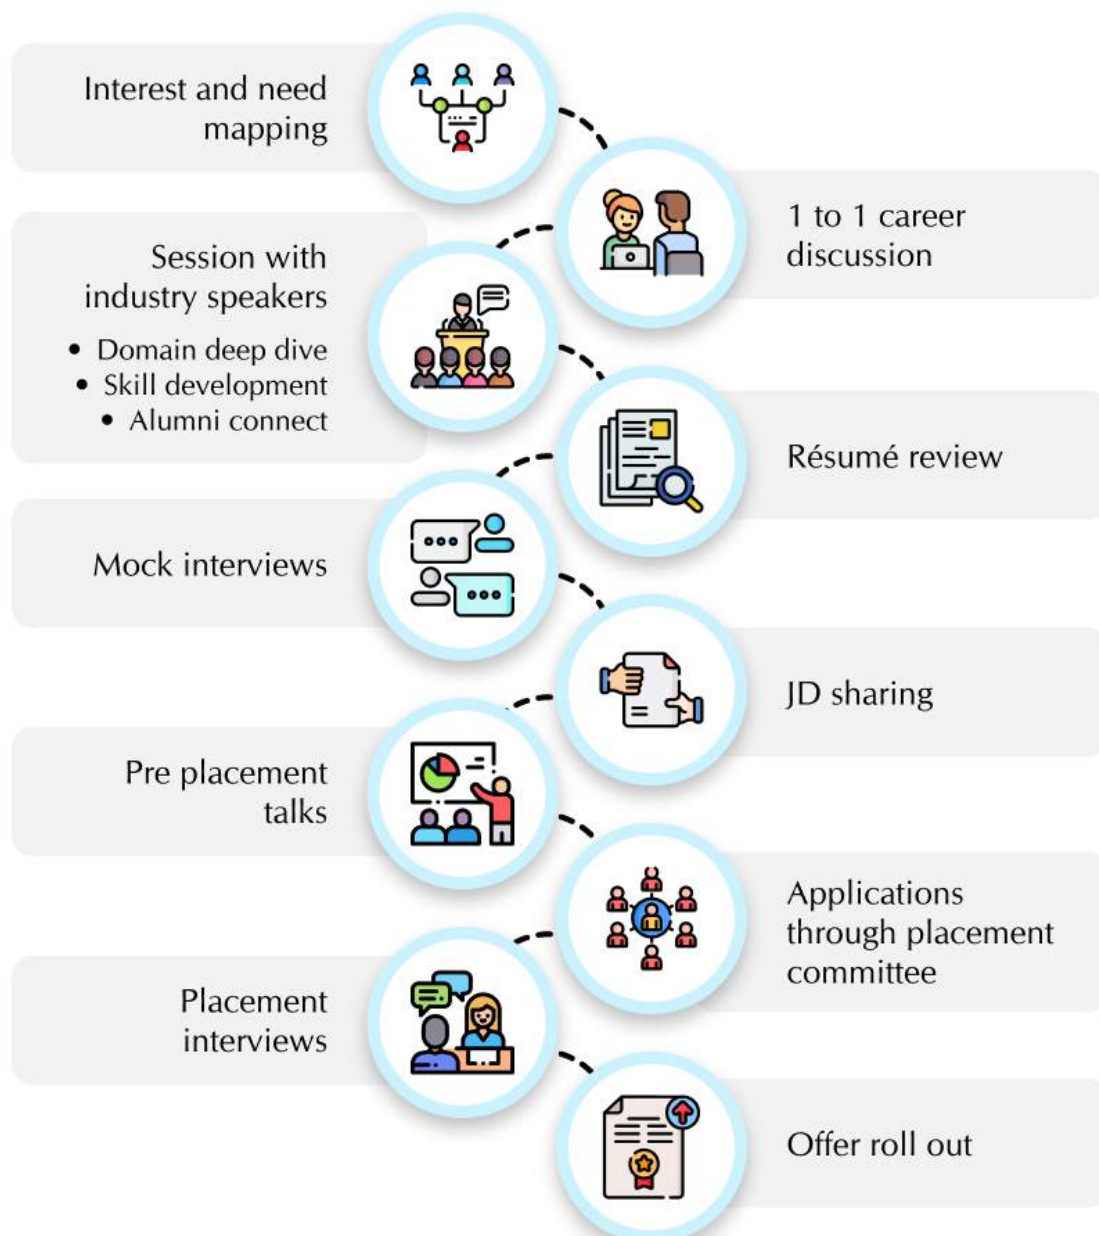

# Placement Process

The placement process is structured to provide students with comprehensive career preparation and strong industry exposure. It begins with Interest and Need Mapping, helping students clarify career objectives and identify development areas. This is followed by a one-to-one Career Discussion, offering personalized guidance tailored to individual goals and market trends.

Students then participate in Industry Speaker Sessions, featuring domain deep dives, skill-building workshops, and alumni interactions. These engagements enhance industry awareness and readiness. A focused Résumé Review ensures that each student presents a professional and compelling profile, followed by Mock Interviews designed to build interview confidence and strengthen communication.

Once prepared, students receive detailed Job Descriptions (JDs) from participating companies, outlining role expectations and required competencies. This is followed by Pre-placement Talks, where organizations provide insights into their culture, career progression, and work environment. Students then submit their Applications through the Placement Committee for relevant roles.

Shortlisted candidates move forward to formal Placement Interviews, which typically include technical and HR interactions. The process culminates in Offer Rollouts, marking the successful transition of students into their professional careers.

## 1 Aadith Suresh

Strategy and operations professional with 10 + years of experience in business growth, digital transformation, stakeholder alignment across public and private sectors.

**Education**  
BSc. Biotechnology  
Sree Sankara College, Kalady

**Last Employer**  
Indian Bank

**Overall Experience**  
10 Years

### Indian Bank –Senior manager

- Played a key role in launching co-branded credit cards in collaboration with leading fintech partners.
- Coordinated cross-functional teams for product development and process optimization (EFRMs and BBPS).
- Was pivotal in the development of an End-to-end digital journey of the existing credit card process flow.

### Indian Bank –Manager

- Led medium and large branches, overseeing team building and business development.
- Managed achievement of targets in deposits, advances, and cross-selling.
- Implemented customer service initiatives, improving client satisfaction and retention.

### Certification

- Certificate in Commercial Credit (Moody's Analytics)
- Junior Associate of Indian Institute of Bankers ( IIBF)

### Accomplishment

- Instrumental in the development of a co-branded credit card in partnership with FPL Technologies, making the bank the first public sector bank to establish such a collaboration, thereby enhancing its digital product portfolio and market competitiveness.
- Led a project enabling real-time reporting of credit card data to the Core Banking System (CBS), significantly enhancing credit risk monitoring and operational oversight for improved decision-making and regulatory compliance
- Served in leadership roles across multiple branches, consistently delivering strong results in retail banking and credit operations. Successfully tripled the business of the Perumbavoor Branch within three years, including during the challenging pandemic period. Demonstrated strong credit management by improving asset quality and enhancing customer relationships through proactive engagement and service excellence.

## 2 Abhishek Roy

As a former Senior Structural Engineer, I contributed to solutions for complex engineering challenges, leveraging cross-functional collaboration and problem-solving skills.

**Education**  
Bachelor Of Technology (Civil Engineering), Vellore Institute of Technology, Vellore

**Last Employer**  
Paharpur Cooling Towers Ltd.

**Overall Experience**  
5 Years

### Paharpur Cooling Towers Ltd.– Sr. Structural Engineer

- Finite Element Structural Engineering on SAP2000 for GHAVP Nuclear Power Facility (2x700MW) worth INR 140 Cr..
- Earthquake Engineering on SAP2000 based on ASCE and IS Guidelines, reducing design costs by 20%.
- Data Analysis and Data Visualization on Python, increasing data insight efficiency by 300%.
- Implementation of Ramer-Douglas-Peucker (RDP) algorithm, increasing efficiency by 200%.

### Development Consultants Pvt. Ltd. – Design Engineer

- Finite Element Structural Engineering on SAP2000 for KKNPP Nuclear Power Facility (2x1000MW).
- Developing Algorithms for Earthquake Engineering which made processes efficient by 200%.
- Design Analysis of Blast Proof Nuclear Facility.
- Design Automation on MacroVBA, reducing turnaround time by 4 times.

### Certification

- CS – PO
- The Business Intelligence Analyst Course 2022
- Google Data Analytics Professional Certificate (Pursuing)
- McKinsey Forward (Pursuing)

### Accomplishment

- Frequency Domain Earthquake Analysis on ACS-SASSI
- Streamlining Data Analysis for Finite Element Analysis
- Obtained Class Rank 1, State Rank 14 and Olympiad Rank 1361 in the SilverZone Smartkid General Knowledge Olympiad 2012

## 3 Aditya Dubey

Adobe Certified Product Professional with 8+ years of experience spanning publishing, digital product design, and intelligent automation.

**Education**  
Post Graduate Diploma in Publishing, IGNOU  
BTech, Electronics and Communications Engineering, VIT University

**Last Employer**  
S&P Global Commodity Insights

**Overall Experience**  
10 Years

### S&P Global Commodity Insights (Platts) – Design and Publishing Analyst

- Product Management for the ADW Recurring Charts Automation Project, which aimed to automate 1,000+ recurring charts monthly, process improvements, workflow optimization, and product-led automation.
- Collaborated with development teams using Highcharts.js, Python, and internal AI infrastructure to implement AI-in-the-loop chart generation, ensuring automated templates reflected design intent and visual standards.

### S&P Global Commodity Insights (Platts) – Specialist I, Design and production

- Managed publishing of 40+ daily, weekly, and monthly commodity market publications in the UK time zone ensuring on-time delivery and operational scalability.
- Designed digital reports and special features using interactive data visualization tools like d3.js, contributing to user-centric design. Developed and delivered interactive and static content, including a series of 16 reports for Saudi Aramco – highlighting client deliverable ownership.

### Certification

- CSPO
- Lean Six Sigma (Green Belt)
- Adobe Certified Professional
- McKinsey Accelerate
- Power BI DataAnalyst Associate

### Accomplishment

- Recognized with the Exceptional Team Award (Q2 2024) and Q2 CI Business Line & Shared Capability Award, along with a Rising Star award for outstanding contributions.

4

## Aditya Pathania

Result-driven Mechanical Engineer with 6+ years of experience in steel manufacturing, operations excellence, and large-scale project execution.

**Education**

B Tech Mechanical Engineering,  
NIT Srinagar

**Last Employer**

AMNS INDIA

**Overall Experience**

6 Years

**AMNS INDIA – Section Engineer**

- Designed and deployed an in-house flexible coupling, reducing downtime by 70% and generating ₹1.25 Cr/year savings through improved reliability.
- Used SAP S/4HANA for shift reporting, maintenance tracking, and shutdown analysis, improving transparency and data-driven planning.
- Led a team of 7 (2 engineers, 5 associates) to ensure smooth line operations, conduct inspections, and perform root-cause analysis to minimize unplanned stoppages.
- Coordinated with vendors and contractors, managing procurement quality, delivery timelines, and supplier relationships to ensure operational continuity.
- Directed 2 capital and 20+ planned shutdowns, ensuring 100% compliance with safety and audit standards while minimizing downtime.

**Essar Steel India – Graduate Engineer Trainee**

- Completed a structured rotational program across core functions to build an end-to-end understanding of steel plant operations, process workflows, and cross-functional interdependencies essential for performance improvement.

**Certification**

- Lean Six Sigma Green Belt
- Agentic AI and AI Agents: A Primer for Leaders
- McKinsey Forward Program

**Accomplishment**

- Gold Trophy – QCPI Convention 2023 (Surat)
- Steel Star Award
- Hall of Fame Award

5

## Akash Kumar

Technology Consultant with 12+ years of experience driving transformation across software security, compliance, and Agile programs for global OEMs.

**Education**

M.Tech, A.M.C Engineering College  
Bachelor of Engineering, B.M.S Institute  
of Technology

**Last Employer**

Bosch Global Software Technologies

**Overall Experience**

12 Years

**Bosch Global Software Technologies (India and Germany) – Project Manager,**

- Contributed to open-source policy formulation for AI systems at Bosch, focusing on risk mitigation, efficiency, and governance alignment.
- Reviewed 50+ pull requests quarterly on Bosch's Governance Board for global project approvals.
- Enabled license governance and compliance strategy with V2V/V2X communication, SR and BB (Sensor Radar and Baseboard) firmware, SDVs,
- ADAS and autonomous vehicle programs.
- Led Agile transformation by introducing story-point estimation across cross-functional teams, enabling structured sprint planning and delivery.
- Achieved project delivery for 15+ global automotive OEMs by managing two Business Units and leading a 14-member cross-functional team.
- Collaborated with 30+ clients for risk evaluation of architecture and component-level elements including cloud and AI systems.

**Certification**

- Certified Ethical Hacker (CEH)
- Agentic AI and AI Agents A Primer for Leaders
- AWS Cloud Practitioner Essentials

**Accomplishment**

- Elected Place-Com Secretary, EPGP 2025–26 (IIM Indore)
- Served as Open-Source Partner (OSP) driving business unit software compliance and code security, owned audits, policy clearance, risk mitigation, license governance.
- Recognized at Bosch with titles like Ace Performer, Inspirer, and Stride the Tide for excellence in innovation.

6

## Akshat Sharma

With six years of experience, I'm passionate about using AI and IT to help businesses grow and transform.

**Education**

Bachelor of Engineering – IT, Acropolis  
Institute of technology and research

**Last Employer**

Merkle

**Overall Experience**

6 Years

**Merkle, Senior Data Engineer**

- Reduced resource cost consumption by \$250,000 through the implementation of a compute resource monitoring system on Snowflake
- Redesigned existing products to increase efficiency by 33% and reduced maintenance man-hours by 50% through AI integration
- Reworked and improved Mercury data source, leading to a profit increase of \$10M over one year
- Led a team to recreate the identity interface product on a cloud platform, decreased processing time by 40% and operational costs by 43%
- Increased the number of Fortune 500 clients from 4 to 37 by collaborating with data scientists and IT professionals to deliver tailored, customer-centric solutions

**Certification**

- AWS

**Accomplishment**

- Infinity Award in 'Make It Real' category, 2024
- Infinity Award in 'Inspire Change' category, 2023 (Mercury Data Project)

7

Amalesh Deka

Results-driven professional with 12+ years of experience in retail and consumer domains, specializing in business transformation, category strategy, and operational excellence.

**Education**  
B.FTech (Apparel Production)  
NIIFT, Bangalore

**Last Employer**  
Lifestyle International Pvt. Ltd.

**Overall Experience**  
12 Years

#### Lifestyle International Pvt. Ltd. (Babyshop) – Senior Manager, Buying

- Led the launch of the Nursery Furniture category for Babyshop India, developing assortment, pricing strategy, vendor network, and go-to-market plan from inception.
- Built annual business plans, sales forecasts, and assortment strategies aligned with brand growth and profitability goals.
- Onboarded 30+ vendors within two months, ensuring supply chain scalability and compliance.

#### Reliance Retail Ltd. (Swadesh) – Senior Manager, Buying

- Spearheaded buying and category planning for Home Linen, blending Indian craft heritage with modern retail trends.
- Built pricing, forecasting, and ordering frameworks to achieve AOP and inventory efficiency targets.
- Partnered with design, sourcing, and artisan clusters to deliver differentiated assortments rooted in Indian crafts.

#### Certification

- Lean Six Sigma Green Belt
- Certified Scrum Product Owner
- SCM Pro
- Business & Operations Analytics
- Finance for Non-Finance Professionals
- Introduction to Generative AI

#### Accomplishment

- Winner – Ideator & Process Innovation Award (Lifestyle People Oscar 2017): Recognized for driving operational excellence through innovative process redesign that enhanced buying efficiency and vendor collaboration.
- Branding & PR Committee Coordinator – IIM Indore (EPGP): Spearheaded content and communication strategy to enhance program visibility; co-authored IIM Indore's EQUIS reaccreditation report highlighting institutional strengths and student-led initiatives.
- Step Up For India Volunteer: Served as a SPOC for the corporate volunteering initiative, teaching English at government primary schools near the workplace and leading team participation in community education efforts.

8

Anjali Sachan

A Strategic Leader with over 10 years of experience translating Operational Excellence into Market-Leading Products and Business Strategies.

**Education**  
B.Tech (Computer Science Engineering), Vivekanand Institute Of Technology & Science

**Last Employer**  
Flipkart

**Overall Experience**  
10 Years

#### Flipkart – Lead, Product & Strategic Operations

- Defined Product Strategy and led the GTM for Open Box Delivery (OBD), capturing New Market Segments for both customer deliveries and seller returns, delivering over ₹259 Cr in total business goodness.
- Drove a 65% reduction in customer MMD (Missing, Mis-shipment, Damage) claims and a 28% reduction in seller return claims by developing the core logic, rule-set contracts, and deterministic signal capture workflows.
- Drove Marketing and Customer Trust Initiatives by launching a Doorstep RVP QC Product, enhancing Brand Perception and Product Quality Assurance.

#### Mfine – Senior Analyst, Business Strategy

- Shaped the Business Model by leading Strategic Planning to reduce Payment Discrepancies by 40% and improved doctor satisfaction scores by 25%.
- Enabled Data-Driven Business Strategy through Data Analysis that directly informed the Q3 2021 Market Expansion Strategy.

#### Certification

- Certified Scrum Product Owner (CSPO®)
- Six Sigma Green Belt (KPMG)
- Looker Studio (Udemy) Core Web Application Technologies (Microsoft)

#### Accomplishment

- Kool & The Gang Award: Recognized for exceptional team contribution to the successful launch and rollout of the Open Box Delivery (OBD) and Doorstep QC products at Flipkart.
- The Rising Star Award: Awarded for best performance in the new investigations batch at Amazon, directly contributing to enhanced marketplace trust and platform integrity.
- Extra Miler Award: Recognized for consistently going above and beyond to improve customer experience and drive process efficiencies.

9

Anjali Sinha

Software engineer with 6+ years of experience in LTE/5G testing and validation. Adept at performing test case analysis through log capturing tools such as QXDM, QCAT, ELT, etc

**Education**  
B.Tech (ECE), SRM University

**Last Employer**  
TechMahindra Limited

**Overall Experience**  
6 Years

#### TechMahindra Limited- Software Engineer

- At TechM, performed validation of AT&T test scripts in accordance with 3GPP specs. Executed various sections of test cases such as Network selection, CSFB, Inter-RAT mobility, SRVCC, etc. Hands-on experience on various simulators like R&S CMW500, Anite 9000, Anritsu, etc. Also performed data throughput cases and WLAN cases on R&S simulator. Improved testing efficiency by analyzing each test case before execution and capturing the logs in case of failure. Expedited the execution of test cases by automating it which led to efficient utilization of multiple simulators at once. Reduced hardware failure by diligently following the vendor guidelines and practices.

#### Certification

- CS- PO
- Gen AI
- Six Sigma
- PG Certificate in Data Science & AI by IIT Roorkee

#### Accomplishment

- Got Recognized with Standing ovation award at workplace for outstanding performance during 2018-2019.
- Secured AIR 10 in National Mathematics Olympiad in 10th standard.

## 10 Anshika Singh

Results-driven professional with 5 years of experience in product sourcing, supply chain coordination, and retail planning, now expanding my business acumen through an MBA.

### Education

Bachelor of Design (FDDI Noida),  
Master of Fashion Management (NIFT,  
Mumbai)

### Last Employer

Reliance Brands Limited-

### Overall Experience

5 Years

### Reliance Brands Limited- Senior Executive / Buying & Planning

- Assisted with product buying for new season and assortment planning
- Analyzed sales data and prepared brand performance reports to review overall business
- Monitored inventory levels, managed stock allocation
- Conducted store visits to gain customer insights and store team feedback
- Conducted product training for store teams

### Inditex- Product Developer / Product Development and Production

- Managed the footwear development process, including planning timelines, vendor selection and management, raw material sourcing, sample reviews, and quality checks
- Conducted regular factory visits to monitor progress, resolve issues, and guide vendors through development challenge
- Liaison between global team and Indian suppliers to align deliverables and ensure seamless communication
- Collaborated with cross-functional teams (logistics, labelling, packaging, sustainability, etc)

### Certification

- Spanish (Level A1)

## 11 Anshul Khare

Mechanical Engineer with 10+ years of experience in design, operations, and maintenance roles across Indian Railways and Coal India.

### Education

B.Tech - Mechanical Engg, IET DAVV  
Indore, M.Tech - Thermal Engg, NIT  
Bhopal

### Last Employer

Coal India Limited

### Overall Experience

10 Years

### Coal India Limited - Deputy Manager

- Lead ₹150 Cr equipment operations in Opencast Mine
- Reduced spare cost by 12%, improved machine availability by 20%
- Coordinated with unions, safety, mining & management
- Implemented SAP system, optimized maintenance scheduling
- Led 80-member team in remote, high-stakes operational setting

### Indian Railways - Senior Section Engineer

- Maintained goods train wagons ensuring high operational uptime
- Led 15-member team, managed defects, spares, and documentation
- Collaborated with signal & operating teams

### Certification

- Lean Six Sigma - Green Belt

### Accomplishment

- Played key role in SAP implementation at project level in Coal India (Nodal Officer, 2022)

- Led cross-functional teams in planning, risk assessment and quality control of ship's operations and maintenance tasks to maintain the efficacy of a \$45M worth engine-room plant using lean principles such as Gemba and Kaizen.
- Instituted the process from scratch for acquiring and utilizing new bunkers and oversaw the operational transition from Heavy Fuel Oil to VLSFO worth over \$2.2 million, ensuring compliance with IMO 2020 regulations for sustainable shipping.
- Spearheaded the collaboration with cross-border, cross-functional staff from Japan for successfully implementing the electronic checklist on a container ship, improving efficiency by 20% to 30% through the transition from paper to electronic systems.

#### Certification

- Lean Six Sigma Green Belt
- CS – PO

#### Accomplishment

- Best Cadet Award at NYK Shipmanagement Pte. Ltd.
- Merit Scholarship Holder during B.Tech
- GMAT 675 (96%ile)

## 33 Abhisek Kalakurthi

Experienced professional with 6.5 years in B2B sales across solution selling, capital equipment, and commercial vehicles.

### Education

B Tech – Mechanical Engineering, NIT Calicut

### Last Employer

Hilti India Private Limited

### Overall Experience

6 Years

#### Hilti India Private Limited – Key Account Manager

- Delivered 14% YoY growth for the territory through account penetration and adding new customers to the portfolio
- Achieved 200% YoY growth in business from Urbanrise developers by using cost analysis and establishing two products as account standard
- Added 2 new clients – DSR Projects and Vertex Homes, with yearly sales potential of 1.4 crore
- Strategized and executed plan to make Hilti as a preferred vendor with L&T Constructions and K Raheja Constructions in anchors and chemicals, with annual sales potential of over 30L.

#### Izura Private Limited (a part of KRS Group) – Product Manager

- Successfully introduced new product "Suspended Rope Platform" into Hyderabad market with sales of over 30L in the initial 3 months.
- Devised and executed a plan to increase service revenues in tower crane division by signing AMCs and Rate Contracts, worth over 70L annually, while managing a team of 8 service executives

#### Certification

- CSPO
- Google Digital Marketing & E-commerce

## 34 Amey Khanzode

Energy industry professional upstream oil & gas energy transition sectors, delivering projects for global clients for commercial decision-making, economic insights.

### Education

MS, Petroleum Engineering,  
Pennsylvania State University

### Last Employer

S&P Global Commodity Insights

### Overall Experience

7 Years

### S&P Global Commodity Insights – Consultant – Energy Transition & Cleantech Advisory

- Delivered 10+ consulting projects for Fortune 500 clients and multilateral agencies across hydrogen, CCS, battery supply chains, and energy transition strategy.
- Developed green hydrogen investment feasibility studies (CAPEX >\$10M) for global energy clients evaluating market entry into India and APAC.
- Delivered decarbonization pathways and that supported emissions abatement planning and future capital allocation tailored to client needs
- Supported stakeholder engagement and content delivery for 5+ global industry events, representing SPGCI as a knowledge partner.

### IHS Markit – Research Analyst, Upstream Costs & Technology

- Produced 15+ company profiles and strategic insights on upstream oilfield services players (OFS), covering subsea systems, offshore rigs, pipelay, and offshore wind.
- Tracked and analyzed market activity of major oilfield service providers, analyzing financial performance, cost structures, and contracting trends.
- Delivered webinars on carbon capture supply chain trends, attended by 100+ clients; generated follow-up interest from multiple energy and equipment companies.

### Accomplishment

- Received "Rising Star in Consulting" (Q2 2023) award for outstanding contribution to the execution of a global leadership dialogue series for an international client, culminating in a widely circulated public-domain report on the multidimensional aspects of energy transition.
- Co-authored a peer-reviewed journal paper published in the Society of Petroleum Engineers (SPE) Journal, based on my master's thesis research on enhanced oil recovery through carbon dioxide flooding.

## 35 Kowshik Sarma Katta

Seasoned professional with 13+ years of experience spanning taxation, audit, identity & access management, and compliance across technology and government domains.

### Education

BTech (ECE), SK University

### Last Employer

Central GST Department

### Overall Experience

13 Years

### Central GST Department- Inspector

- 25+ fraudulent GSTINs blocked during 100+ site verifications, saving ₹5 Cr in potential loss.
- ₹2 Cr recovered from 50 high-risk filers through GST return reconciliation (GSTR-1/3B/2A vs books).
- ₹74 lakh in legacy arrears recovered by activating legal tools and liaising with banks/enforcement.
- 20% increase in revenue recoveries by integrating data from ADVAIT, ITRs, e-Way bills, and GST returns.
- 100+ fake GST registrations eliminated in two years, preventing ₹8 Cr+ fraudulent ITC claims.

### Defence Accounts Department- Auditor

- ₹40 lakh/month revenue ensured by billing 1,200+ defence units through Bhawan software.
- 25% boost in occupancy by resolving 100+ billing issues and updating tenant records.
- ₹1.2 Cr procurement audited through physical verification, improving asset tracking and reducing fraud.
- Delivered insights to command using reports on arrears, revenue, and utilization for better planning.

### Certification

- Certified Scrum Product Owner (CSPO), Scrum Alliance
- Lean Six Sigma Green Belt- KPMG

### Accomplishment

- "Revenue Recovery through Analytical Scrutiny: Recovered over ₹2 Cr in unpaid GST dues by scrutinizing high-risk filers using data reconciliation and analytics, directly contributing to jurisdictional compliance enhancement."
- "Fraud Prevention in GST Ecosystem: Prevented ₹8 Cr in fraudulent ITC claims by identifying and eliminating 100+ fake GST registrations during national-level drives, safeguarding government revenue."
- "Process Digitization for Appeals Monitoring: Achieved 100% digitization of 300+ appeal files via ITBA module, reducing turnaround time and improving case tracking."
- "High-Value Smuggling Risk Interception: Flagged ₹1.5 Cr worth of smuggling risk by analyzing international travel patterns as Air Customs Officer."

## 36 Mayank Gupta

Result driven and seasoned professional with 6+ year of experience in content, marketing, and sales domains.

### Education

BE, Electrical Engineering, Thapar University

### Last Employer

ZebraLearn Pvt. Ltd.

### Overall Experience

6 Years

### ZebraLearn Pvt. Ltd. – Head – Submissions & Projects

- Spearheaded content curation for 20+ books, 7+ courses, and 30+ ebooks monthly across business domains.
- Built and led a team of 40+ instructional designers, and writers, streamlining operations and reducing TAT by 40%.
- Expanded publishing categories from finance to marketing, entrepreneurship, technology, HR, and real estate.
- Consulted in developing an in-house product (like MS Word) with content analytics for streamlined communication
- Managed key brand partnerships (e.g., Master's Union, Motilal Oswal), strengthening long-term collaborations.

### Text Mercato Solutions Pvt. Ltd. – Content Manager

- Managed content operations for 20+ enterprise and mid-market clients across BFSI, E-commerce, EdTech, Real Estate, and Lifestyle sectors, including digital-first organisations like Flipkart, Amazon, etc.
- Led a team of 20+ writers, editors, and designers to deliver multi-format content aligned with brand and audience.
- Developed SEO and content strategies, leading to a 30%+ boost in organic traffic and improved SERP rankings.

### Certification

- CS-PO
- Six Sigma (Green Belt)

### Accomplishment

- Part of the leadership team at ZebraLearn that drove the company's strategic evolution and represented it on Shark Tank India, showcasing publishing innovation on a national platform.
- Established the first design vertical at TextMercato for a Fortune 500 client; successfully onboarded agencies and delivered Amazon-grade content and design within 30 days.
- Organized 3 social impact projects as part of Rotary Club, Alwar—ranging from ration kit drives to sanitary block inauguration—showcasing commitment to community leadership.

## 37 Naveen R

Results-driven Business Analyst with over 7 years of experience in identifying business needs, designing strategic solutions, and driving successful project execution.

**Education**  
BE(CSE), Anna University  
PGDM(GM), XLRI

**Last Employer**  
Accenture

**Overall Experience**  
7 Years

### Accenture – Business And Integration Associate Manager

- Leveraged Agile methodology to gather business requirements and develop Epics, Features, and Product Backlog Items for the digital transformation of the FTE forecasting process using Appian.
- Implemented end-to-end solution delivery in all stages by facilitating collaboration between developers and business subject matter experts (SMEs).
- Facilitated discovery sessions with clients to conduct feasibility analyses and deliver high-level project implementation plans.
- Facilitated release management and conducted product demos as part of Agile sprint reviews, ensuring continuous delivery and stakeholder alignment throughout the development lifecycle.

### Team Lease(TCS) – Product Owner

- Implemented the Application Portfolio Rationalization initiative for enterprise applications, assessing system usage, business value, and technical fit
- Portfolio SPOC for the project transition that involved transition planning, knowledge acquisition plan, secondary support, primary support, and steady state phases
- Experienced in end-to-end management of Incident, Change, and Problem processes, with a strong foundation in SDLC and Application Lifecycle Management. Actively contributed to Change Advisory Board (CAB) discussions to evaluate change impacts, support decision-making, and uphold operational and compliance standards.

### Certification

- Certified Scrum Product Owner (CSPO)

### Accomplishment

- Three times secured TCS Employee of the Month Award
- Organized Infosec 2019 Event in TCS and received certificate of appreciation from TCS head of Information security

## 38 Navneet Kumar

A results-oriented public finance and technology professional with over a decade of diverse experience spanning tax administration, IT strategy, and software development.

**Education**  
B.E.-IT, BIT Mesra

**Last Employer**  
Bihar Finance Services

**Overall Experience**  
11 Years

### Bihar Finance Services- Assistant Commissioner of State Tax

- Led GST compliance and enforcement operations, playing a pivotal role in revenue assurance and tax administration.
- GST Enforcement & Compliance Oversight: Spearheaded enforcement of GST provisions through rigorous assessment and scrutiny of taxpayers and defaulters, ensuring regulatory adherence and revenue integrity.

- Legal & Administrative Action: Issued over 300 statutory notices resulting in substantial tax recoveries and swift resolution of evasion cases, reinforcing tax discipline.

### Punjab National Bank – Senior Manager, IT

- Strategic management of IT functions, data-driven decision support, and digital capability enhancement within the banking training ecosystem
- Training Operations Analytics: Led data analysis and performance reporting for 13 training centres across India, enabling insights-driven planning and policy formulation.
- Instructional Leadership: Conducted training sessions on Core Banking Solutions (CBS) and Digital Banking Products, enhancing technical competencies of banking personnel.

### Certification

- Certified Scrum Product Owner
- JAIB-Indian Institute of Banking and Finance

### Accomplishment

- Always got 9+ rating in annual appraisals in Punjab National Bank and in Commercial Taxes Department, Bihar
- Always got outstanding ratings from candidates at Punjab National Bank training center

## 39 Parismita Rajkhowa

Quality and compliance specialist with 6+ years of experience at Amazon and TCS, currently pursuing MBA (EPGP) from IIM Indore.

**Education**  
B.Com, Jagannath Barooah College

**Last Employer**  
Amazon

**Overall Experience**  
7 Years

### Amazon – Quality Analyst

- Led cross-functional process improvement projects in compliance operations at Amazon, achieving an 89% reduction in process errors through SOP enhancements, stakeholder alignment, and continuous calibration sessions.
- Planned and executed automation initiatives for quality tools, reducing manual effort and improving turnaround time in defect identification and resolution.
- Developed and implemented corrective action plans by analyzing operational data (DMP/Paragon), identifying top root causes, and driving SOP and training updates across global teams.
- Collaborated with stakeholders across QA, Ops, SMEs, and Tech to manage new task onboardings (NTOs) and ensure smooth rollout of quality and compliance standards.
- Prepared project documentation, created process flowcharts, and conducted structured training for new hires and existing teams, ensuring smooth adoption of revised SOPs and tools.
- Monitored project impact through quality metrics and dashboards, presented weekly/monthly reports to leadership, and shared learnings across nodes to support global scalability.
- Managed change communication and led knowledge transfer sessions during SOP updates, ensuring alignment across operations, quality, and leadership teams.

### Tata Consultancy Services – Process Associate

- Designed interactive dashboards for Weekly Business Reviews (WBRs), enabling leadership to track performance trends, defects, and process improvements in real time.
- Presented weekly, monthly, and quarterly reports highlighting key quality and compliance metrics to drive informed decision-making.

### Certification

- Six Sigma: Green Belt
- Project Management
- Gantt Chart

## 40 Prasad Vijay Joshi

An accomplished IT leader in the BFSI domain. Offering a rare blend of strategic expertise across Pre-Sales, IT Consulting, and large-scale Program Management.

**Education**  
BE, Sinhgad College of Engineering

**Last Employer**  
Infosys Ltd.

**Overall Experience**  
14 Years

### Infosys Ltd.- Lead consultant

- Program and project manager for Salesforce and Ncino based Dutch Bank project
- Led several Agile and DevOps transformations; part of Cloud team for Digital transformations
- Played role of package integrator for various proposals/RFPs
- Part of Client engagement Team for the Digital Transformation group involved in Sales & opportunity mining

### Zymr Systems- Scrum Master

- Played the role of Agile Coach and Scrum Master
- Led Agile Transformation for 2 teams

### Certification

- PMI-PMP, PMI-ACP
- CSP-SM, ACSM, CSM, CAL I
- GCP Associate cCloud Engineer
- Team Kanban Practitioner
- Certified Less Basics
- ICP-ACC, ICP-ENT, ICP-CAT

### Accomplishment

- Led a team of 50 people for a Dutch banking project based on NCino Transformation. The bank has saved \$30 million till date and has managed to improve time to market by 65%.
- Package integrator a large deal (>\$50 Million) for Infosys. Infosys secured the multi year cloud transformation deal for a British banking group.
- Led a team of 30 people for a 2 year Agile and DevOps transformation for a Dutch bank. Bank managed to save \$20 Million through Digital Transformation.
- Infosys Award for Excellence and Rising Star Award

## 41 Prashant Singh

Results-driven Lean Six Sigma Green Belt Certified professional with 6.5+ years of experience in Process Consulting, Lean Manufacturing, and Operational Excellence.

**Education**  
B. Tech, National Institute of Technology Durgapur

**Last Employer**  
PBOPlus Consulting Service

**Overall Experience**  
6 Years

### PBOPlus Consulting Service - Senior Consultant

- Spearheaded operational optimization projects by collaborating with cross functional teams resulting in overall value delivery.
- Undertook initiatives to implement data driven decisions to improve overall business performance by introducing dashboard-based performance tracking setup.
- Institutionalized Gemba Walk practices to promote continuous feedback between leadership and floor staff, resulting in improved communication and faster resolution cycles.

### Vedanta Aluminum Ltd.- Asst. Manager

- Operated in one of India's largest aluminum smelting units with a production capacity of 1.6 million tonnes per annum, ensuring high throughput while maintaining quality compliance.
- Lead a team of 30 personnel (direct and indirect) reportees delivering smooth operations and 100% safety compliance.
- Generated analytical insights using Power BI and Excel to identify loss making processes and eliminate operational breakdown.

### Certification

- Lean Sigma Green Belt(KPMG)
- Power BI

### Accomplishment

- Increased overall production efficiency at site from 93% to 94.8%.
- Ranked 1st in Project Udaan - Vedanta, a high-impact initiative focused on developing future leaders through hands-on projects in cost reduction, process optimization, and team leadership.
- Secured 97.8% audit Score for operations consecutively for 8 months at Vedanta Aluminium Limited.
- Completed emergency commando training for pot cut out in emergency to avoid line stoppage.

## 42 Rahul Harish Goplani

Over 6.7 years of hands-on experience in cloud Consulting and DevOps engineering, with deep expertise across AWS, Azure, Kubernetes, and CI/CD automation.

**Education**  
BE(E&TC), SNJB COE

**Last Employer**  
P S Intelgentia Pvt Ltd

**Overall Experience**  
6 Years

### P S Intelgentia Pvt Ltd - Senior Cloud/Devops Engineer

- Led cloud infrastructure and DevOps initiatives across AWS, Azure, managing migration of 7+ applications to the cloud, increasing system uptime from 85% to 95%.
- Drove a 60% improvement in system performance and a 40% reduction in operating costs.
- Mentored and guided cross-functional teams in DevOps best practices, fostering a culture of automation and continuous improvement, and achieved 100% adoption of CI/CD pipelines across all development teams.

### Baker Hughes - Build And Release Engineer

- Led automation initiatives that eliminated 40-50% of repetitive manual tasks across development and operations, resulting in substantial cost savings and increased developer productivity.
- Designed and executed CI/CD pipelines, embedding automated security and code quality checks that reduced deployment errors by 25% and accelerated time-to-market for new features.
- Collaborated with cross-functional stakeholders (Product, QA, Development Team) to align technical delivery with strategic business goals, improving system reliability and reducing unplanned outages.

### Certification

- CSPO
- AWS Solution Architect
- Project Management - Coursera (By IBM)
- Terraform Associate
- Certified Kubernetes Administration (CKA)

### Accomplishment

- Certificate Of Recognition (Intelgentia)
- District Level Volleyball player

## 43 Raju Venkati Gaikwad

An accomplished Lead Engineer with extensive expertise in telecommunications and fiber network engineering.

**Education**  
B.Tech, College of Engineering Pune  
MS, University of Missouri

**Last Employer**  
Congruex Asia Pacific

**Overall Experience**  
6 Years

### Congruex Asia Pacific – Lead Engineer

- Lead Engineering and Design projects for Rehab, GPON / FTTP, Fiber backbone, FTTB, CDFS CenturyLink projects for Iowa, Wyoming, New
- Mexico, Colorado, Arizona, Washington, Oregon, East NC, and South Virginia states.
- Trained and formed new team of 50 engineers in span of 6 months for new project workflow.
- Successfully generated revenue of 10 million \$ in span of 12 months, by completing more than 1200 project jobs.

### CHC Consulting – Engineer

- Create Designs of the outside fiber plant to include engineering, permitting, contracting, maintenance of new buildings adding and existing fiber facility relocations and removing existing fiber and equipment.
- Develops site drawings and construction drawings for the implementation of construction/modifications to new or existing Telecommunications facilities and development of complex outside plant (OSP) Designs equipment installations, modifications, and upgrades.
- Interpret codes, standards, requirements, and Rural Utility Service codes guidelines for telecommunication projects.

### Certification

- Lean Six Sigma – Green Belt

### Accomplishment

- Received Dean's International Students Awards for pursuing Master's in university of Missouri

## 44 Rana Vishwajeet Singh

Results-driven Business Analyst and Data Analytics professional in digital transformation, IT system development, and business process optimization across leading automotive firms.

**Education**  
B.Tech, Mechanical Engineering,  
SHUATS (Prayagraj, U.P.)

**Last Employer**  
NBC – CK Birla Group

**Overall Experience**  
5 Years

### NBC – CK Birla Group (Corporate Office) Manager – Operations

- Supported and assisted to the Chief Operating Officer (COO) for strategy formulation through analytics and execution of business optimization projects.
- Spearheaded digital transformation projects, including end-to-end SAP WMS implementation and automation of operations (Manufacturing, SCM, Procurement).
- Designed data-driven strategies and optimized processes, resulting in operational cost reduction by 10% and improved efficiency by 3%.

### PERSOLKELLY India Ltd. (Deployed – Hero MotoCorp Ltd.) Business Analyst, IT Projects

- Collaborated with IT and business teams to enhance and develop core IT systems (Web App, Windows App and Android App).
- Conducted business process design analysis and recommended digital solutions for operational improvement.
- Prepared BRDs and SRS documents, ensuring alignment between business needs and technical delivery.

### Certification

- Certified Scrum Product Owner (CSPO)
- IBM Data Science Professional Certificate
- Business Analysis
- Lean Six-Sigma Green Belt
- Foundations of Business Strategy – University of Virginia

### Accomplishment

- Best Cost Saving Project Award – NBC (CK Birla Group).
- Value Champion Award – NBC (CK Birla Group).
- Innovation Award – Minda Corporation.
- Customer Appreciation for successful IT system deployment (VECV Traceability).
- Best Suggestion Award for Cost Saving Project – ZF WABCO.

## 45 Riya Sinha

Dynamic banking professional with 5+ years of experience in branch operations, portfolio management, and client relationship building at South Indian Bank.

**Education**  
B-Tech, Electronics and  
Communication, School Of  
Engineering, CUSAT

**Last Employer**  
The South Indian Bank

**Overall Experience**  
5 Years

### The South Indian Bank- Branch Operations Manager

- Branch Operations, Trade Finance and Compliance
- Acted as the single point of coordination between departments—cash, loans, clearing, and customer service
- Processed and scrutinized Letters of Credit (LCs) for accuracy, compliance, and document verification
- Coordinated with foreign and domestic banks via SWIFT messaging for timely settlements

- Placed in Grade-2 (Deputy Manager) for excellent outcome in probation –SBI
- Awarded GEM by Assistant General Manager for exceptional performance. –SBI
- Long Service Medal (LSM) –IAF
- Best All-round trainee –IAF
- AOM (Air Officer Maintenance) Medal for Excellent in Technical training –IAF

## 47 S Raghubir Pattnaik

Results-driven cybersecurity and IT professional, currently pursuing an Executive MBA at IIM Indore to strengthen strategic, analytical, and leadership skills.

### Education

B.Tech(Electronics and Telecommuni-  
cations), VSSUT, Burla, Odisha

### Last Employer

Infosys

### Overall Experience

5 Years

### Infosys Limited–Senior Associate Consultant

- Led the seamless migration of 40,000+ user machines from Symantec DLP to Microsoft Purview DLP with minimal disruption.
- Reduced false positives from 40% to under 5% by optimizing DLP policies and refining detection logic.
- Managed a 10-member team to execute phase-wise rollout, bugre solution, and policy testing.

### Infosys Limited–Test Engineer

- Contributed to modernizing India's taxation infrastructure by enhancing system accuracy and user experience.
- Reviewed Business Requirement Documents(BRDs) and technical specifications to ensure test alignment with functional goals.

### Certification

- CS-PO
- The Certified Scrum Product Owner(CSPO) certification, offered by Scrum Alliance, validates expertise in Scrum principles and the Product Owner role—managing the product backlog, prioritizing tasks, and aligning the team with the product vision to maximize value—after completing a two-day training.

### Accomplishment

- Core member of Infrastructure Committee, IIM Indore
- Facilitated Visa process of cohort and managed various facilities at hostel
- Project Contribution Award
- I was honoured with the "Insta Award" by my manager at Infosys in recognition of my significant contributions to the project.
- Core Member of PIXELS(Art and Photography club of VSSUT Burla)
- Actively contributed to the university's photography club by capturing campus events, mentoring juniors, and showcasing creative work in inter-college competitions and exhibitions.

## 48 Sandeep Baruah

Results-driven project and operations management professional with proven expertise in leading large-scale greenfield and dairy sector initiatives.

### Education

B.Tech. Dairy Technology, NDRI Karnal

### Last Employer

Directorate of Dairy Development,  
Govt of Assam

### Overall Experience

6 Years

### Directorate of Dairy Development, Govt of Assam – Asst. Rural Dairy Extension Officer

- Spearheaded end-to-end revival of 3 defunct milk processing plants through a stakeholder-driven PPP model, generating 1,000+ local jobs and 15,000 litres/day processing capacity, resulting in ₹2.7 lakh/month revenue.
- Led a cross-functional team of 6 under a World Bank aided project to implement dairy development initiatives across 19 districts, resulting in a 30% increase in milk volumes routed to the formal sector, within 15 months.
- Conceptualised and built three physical market places worth ₹16 Cr in prime locations at Guwahati, promoting D2C business opportunities to 16 dairy entrepreneurs.

### Tetra Pak India Pvt. Ltd. – Process Engineer

- Led the design and execution of six greenfield projects valued at ₹200 crores, managing installation teams of 100+ personnel
- Collaborated with cross-functional automation teams to deliver integrated plant solutions, defining process requirements and coordinating FAT/SAT testing protocols, achieving ~25% reduction in unplanned downtime.

### Certification

- CSPO
- SCMPro (Pursuing)

### Accomplishment

- Secured 1st Position in Assam Public Service Commission Examination, 2021 for recruitment of Plant Manager and equivalent posts under Dairy Development Department, Govt. of Assam.
- Awarded Director's Gold Medal and Merit Certificate for Academic Excellence at National Dairy Research Institute, Karnal (2018)
- Secured First Prize at Zonal Level & District Level Inter-College Science Quiz Competition conducted by Haryana State Council for Science & Technology, 2016

## 49 Saransh Agarwal

Results-driven professional with nearly 6 years of experience in leading complex projects and driving operational excellence across global industrial settings.

**Education**  
B. Tech in Electronics and Communication, IMS Engineering College

**Last Employer**  
SMS India Pvt. Ltd.

**Overall Experience**  
5 Years

### SMS India Pvt. Ltd. –Assistant Manager, Electrics & Automation

- Spearheaded radar-enabled yard automation involving 10+ cranes, enhancing safety and reducing human intervention by 70%.
- Delivered PCI systems handling up to 164 TPH, improving process efficiency and reliability.
- Contributed to 20% reduction in project downtime through root cause analysis and proactive issue resolution.
- Directed commissioning of India's largest RHI system (360-ton capacity), collaborating with 5+ cross-functional teams.
- Led 10+ major commissioning projects across India and Russia, including automation for JSW and MMK.

### Accomplishment

- Successfully transitioned from a core engineering role to a top-tier MBA program (IIM Indore), reflecting ambition, adaptability, and a long-term vision for leadership.
- Managed delivery of 10+ automation projects across India and Russia, building expertise in stakeholder alignment, global collaboration, and client satisfaction.
- Developed radar-enabled slab yard automation for 10+ cranes, reducing manual intervention by 70% and enhancing plant safety—aligning engineering delivery with business KPIs.

## 50 Sayan Maji

Experienced Engineering Professional with 5+ years of leading complex, cross-functional projects across global infrastructure and sustainability domains.

**Education**  
Bachelors in Mechanical Engineering, Jadavpur University

**Last Employer**  
Worley

**Overall Experience**  
5 Years

### Worley– Piping Engineer

- Led piping stress analysis for large-scale projects like H2 green steel, ensuring safety and code compliance.
- Coordinated with cross-functional teams to resolve technical issues and improve design efficiency.
- Provided value-plus ideas by optimizing layout and removing costly accessories. Which resulted cost reduction by \$15k.

### Air Products– Associate Engineer

- Conducted piping stress analysis for critical equipment and high-pressure systems in hydrogen and industrial gas plants.
- Collaborated with global engineering teams across geographies to standardize design practices and resolve issues.
- Ensured code compliance and project safety by performing load case evaluations and equipment nozzle checks.

### Certification

- CSPO
- Google Data Analytics
- MS Excel Advance
- SQL
- McKinsey Forward
- Six sigma green belt

### Accomplishment

- Member of Branding Committee of EPGP Co'26 at Indian Institute of Management, Indore.
- As a member of Cultural Committee of Worley led various cultural events in the company.
- Recognized and awarded by the team lead for exceptional contributions to sustainability.
- Received SPOT Award for outstanding performance and contribution to project excellence and team success.
- Completed a 10K marathon under 78 minutes and earned a finisher's medal.
- Foundation for Excellence Scholar.

## 51 Sessa Monica Vadrevu

Software professional with 7.8 years of experience across banking, intellectual property, healthcare, and access management domains.

**Education**  
B.Tech, JNTU  
M.Tech, KL University

**Last Employer**  
CIBC Work Location

**Overall Experience**  
7 Years

### CIBC – Sr. Software Engineer

- Led change management initiatives and executed GoLive processes with 100% success rate, reducing post-deployment incidents by 30%.
- Ticket handling and deployment tasks.
- Contributed to a project that supported over CAD\$5M in transaction processing infrastructure.

### MaxVal – Sr. Software Engineer

- Developed features for Symphony (IPMS) enabling faster IP lifecycle tracking, reducing manual input by 40%.
- Acted as a bridge between clients and development teams, ensuring 95% client satisfaction in bi-weekly sprints.

### Certification

- Certified Scrum Product Owner CSPO – Scrum Alliance

### Accomplishment

- Led critical cloud migration project at Sharp Technologies under tight timelines, delivering successful Azure deployment.
- Awarded multiple team recognitions at the workplace (2017, 2019) for excellence in delivery and team engagement.
- University Gold Medalist and College Topper in M.Tech (Computer Science Engineering)
- Won elocution and classical dance (District level(India) & Silicon Valley(California))
- Won Beauty and Leadership titles like Miss Fresher(Engineering College) and School Captain.
- Actively contribute to society through long-term association with Sri Sathya Sai Seva Samithi, organizing medical camps and relief efforts.

## 52 Shipra Varshney

Seasoned technology professional with total 11 years of experience leading multi-disciplinary tech implementations across end-to-end SDLC.

### Education

Bachelor of Technology (Information Technology), Vishveshwarya Institute of Engineering and Technology

### Last Employer

Tata Consultancy Services

### Overall Experience

11 Years

### Tata Consultancy Services – Project Lead, Scrum Master, Validation Lead & Assisting Manager

- Offshore IS Lead for Project Planning and Tracking, POCs implementation, budgeting projects/enhancements annually and quarterly, Reviewing and Approving Test Cases, External Business Partners engagement, Weekly/Monthly/Quarterly Status Reports, Mentoring new members, Keeping the teams and projects compliant to TCS and Client's policies.
